Online ERP Certificate with SAP

Set yourself apart with a well-respected certificate in SAP® delivered through Penn State World Campus. SAP is the leading Enterprise Resource Planning software company in the world. This program can teach you how to better manage business operations for your company using SAP software—to give you a competitive edge in your current job or set you up for career advancement in a variety of industries.

This 9-credit certificate teaches applied business concepts, using SAP as a teaching tool including numerous hands-on SAP exercises. The certificate is ideal if you are seeking to move into, or are completing a degree in, business management, operations analysis, computer software, or information systems. By completing the 9-credit program with a grade of C or higher, you will have met the requirements for the SAP Student Recognition Award from SAP University Alliances.

SAP University Alliances

"The courses are demanding, but the course work remains relevant through the use of real-world scenarios, cases, and concepts that can easily be incorporated toward making process improvements in the Navy."

—Lieutenant Richard Tisdale,

Curriculum

This three-course program is designed to provide you with a foundational knowledge of SAP. Choose 9 credits from the following 3-credit* courses:

▶ **MIS 404 Introduction to ERP and Business Processes**
A problem-based, interdisciplinary course on Enterprise Resource Planning (ERP) concepts and business processes.

▶ **SCM 445 Operations Planning and Control**
Aggregate production planning procedures, disaggregation methods in hierarchical production planning, master production scheduling, material requirements planning, lot-sizing, and capacity planning.

▶ **SCM 460 Purchasing and Materials Management**
Purchasing policies, procedures, order specifications and agreements, supplier selection, and the role of purchasing in production planning and inventory management.

▶ **SCM 465 Electronic Business Management**
A problem-based exploration of the various electronic business tools and technologies required to efficiently manage a supply chain.

*Courses have prerequisites; see website for details.
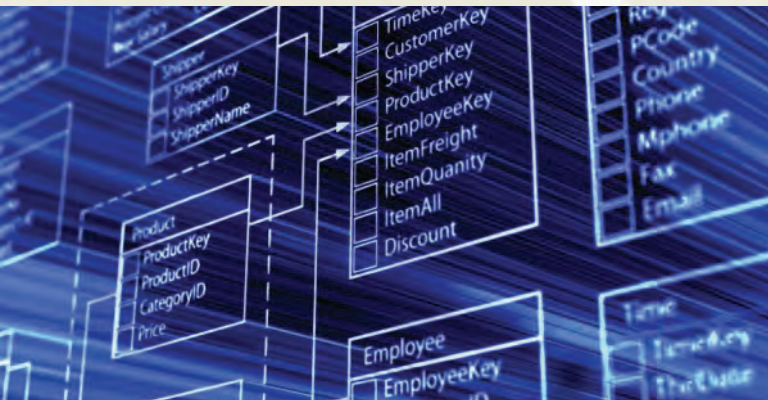

Who Should Apply?

Companies in a variety of industries all over the globe use SAP software solutions. As a graduate of the ERP Certificate with SAP program, you can prepare for positions such as:

- SAP data analyst
- SAP support analyst
- supply chain professional
- computer systems analyst
- logistics analyst
- program manager

Online Learning

Penn State World Campus designed this program to provide you with flexibility so you can complete your course work when and where it is most convenient for you. Courses are offered in a time frame comparable to a traditional semester schedule, with fixed start and end dates. The delivery method for this program is "online group," with a group of students progressing together through each course.

As a pioneer in online education, Penn State has developed a nationally recognized support system for students who are studying online. You will have access to an array of support services, including course scheduling assistance and academic advising, technical support offered by the friendly World Campus HelpDesk staff, and career counseling with a licensed professional counselor.
